Effective School Shadowing: Incorporating ABA into a Classroom Environment

Presented by:

Elizabeth Thompson, MSc

Participating in classroom based instruction is a key learning opportunity for children with autism, but also raises many new challenges. Providing appropriate support is crucial to helping children learn to learn in group settings and participate in a meaningful way alongside their peers. Attend this workshop to learn strategies for supporting children in classroom environments in an optimal manner.

This workshop will cover:

- Roles and responsibilities
- Collaboration with teachers
- Promoting independence
- Incorporating additional curriculum
- Selecting & using classroom appropriate reinforcement

Who should attend:

- Behaviour Therapists
- Learning Support Assistants
- Teachers & other School Personnel
- Parents

Saturday, September 11th, 2010
